

Lenzing Instruments is an internationally active company. In addition to the production and distribution of various laboratory testing devices for the industry, our focus lies on developing customized measurement systems tailored to our customers' needs for online monitoring of production processes. With our expertise, we also repair and inspect laboratory and analytical devices for our customers in accordance with prevailing international standards.

To expand our team in Lenzing/Gampern, we are looking for someone to start as soon as possible in the position of

## Service Technician

### Your responsibilities

- Performing service work and recertifications of testing equipment and measurement systems
- Documenting work according to quality management requirements
- Regular maintenance of equipment and systems at our customers' sites in the Vöcklabruck district
- Repairing testing equipment in the areas of electronics, mechanics and IT

### Unsere Expectations

- Successfully completed technical education (HTL Electrical Engineering/Electronics or solid experience in Electrical Engineering/Electronics/Mechatronics)
- Very good knowledge of MS Office (Office 365)
- Committed and structured work approach
- Enjoyment of independent work as well as effective collaboration in a small, dynamic team
- High level of precision when inspecting and repairing equipment

### Our Offer

- Long-term and secure employment in an internationally active company
- Challenging and varied tasks with a high level of responsibility
- Work in a motivated team and excellent working atmosphere
- Flat hierarchies and a dynamic work environment
- Flexible working hours (flextime)
- Company performance-based annual bonus for all employees, as well as recognition of long-term service in the form of anniversary payments or additional time off

For this position, you can expect a gross monthly salary based on the collective agreement of the chemical industry for a 38-hour workweek.

Due to your individual qualifications and relevant professional experience, we are, of course, open to offering a higher salary.

Are you interested in this position? I look forward to receiving your application and am happy to answer any questions!
